PROFILE

- Over 15 years of experiences in enterprise software and internet product development;
- Complicated business, product and engineering problem-solving capabilities;
- Passionate about cutting edge technologies and making easy-to-use solutions;
- Effective organizational, strategic planning and communication skills;
- Experienced in building and managing sustainable R&D teams that focus on delivering high quality products;
- Full stack software engineer LAMP (Linux/Windows, Apache/NGINX, MySQL/MSSQL, Python). Focus on Web Application Framework base-on python in recent years;
- Strong experience in Object-Oriented Design and Python /Java/Objective C/Delphi Development, skilled at progressing from problem statement to well-documented designs;
- Skilled Researcher experienced in management, strategy, and consulting in the technology sector;
- Analytical thinker that consistently resolves ongoing issues or defects, often called upon to consult on problems that have escaped resolution by others
- Possess some other capacities, like manage network and server, UI design with Sketch and PS.

SKILLS

- **Relational database:** MS SQL Server/T-SQL (10+ years), Mysql/Oracle/SQLite (6 years)
- **Linux/Apache/Mysql/Python:** Python (10 years), Linux/Apache/NGINX (6 years)
- **webpy/Flask/Django:** webpy (6 years), Flask/Django (2 years)
- **Web(HTML/CSS/Javascript):** 10+ years
- **Web(jQuery/Bootstrap):** 6 years
- **Redis/Memcache:** 3 years
- **iOS/MacOS(Objective C):** 3 years with xCode
- **Subversion/Git:** SVN (8 years with management), Git (3 years)
- **Java/J2EE:** noncontinuous experience with Eclipse, IBM RAD, Tomcat, Websphere, Weblogic
- **AWS/Tencent Cloud:** 2 years
- **BI:** 1 year with IBM Cognos, ETL(Kettle)
- **Others (Software):** MVC, Photoshop, Mindmap, Sketch, MS Office, etc.
- **Others:** VM, DNS, DHCP, Intranet, TCP/IP LAN, Wireless LAN, Router/Firewall (H3C, Cisco)

EXPERIENCE

Hangzhou ENFO Software Co., Ltd. China

Jul. 2009 - Feb. 2018

R&D Manager (10+ staff) / Chief Architect / IT Manager

- Manage activities and Research works involved in evaluating, research, and planning of framework products. Deputize for the IT Manager.
- R&D: Hands-on a web application framework with python and web.py. It is a typical LAMP (Linux/Apache/Mysql/Python) framework but it has more and it's all RESTful.
- BI: Builds the first data warehouse system based-on IBM Cognos 10.
- Mobile: Builds initial Apps on iOS at a critical moment in the company's need to launch Apps.
- EPG during CMMI3. Built a series of processes and supervised these processes.
- IT Manager during ISO 27001.

Manager of Technology Department (40+ staff)

- Oversee the application of design and technology to deliver compelling product solutions.
- Monitor the overall status of development projects supporting new features and functions.
- Plan, organize, and control the activities and resources of the delivery group.
- Ensure there is clear communication and alignment with cross-functional teams including Sales, Marketing, Delivery and Services.
- Give employees or project members help to solve difficult problems, provide simple solution, sometimes write core code.

Newdynamics Software Technology Co., Ltd. China

Oct. 2003 - Aug. 2007

Project Manager

- Supervised entire software development life-cycle, from analysis of client needs to prototyping and implementation, from customer service to technical support.
- Hands-on development and management of code assistant application, SQL explorer application, and so on, used internally.
- Crucial technique development in applications.

Singlee Software (Group) Limited Company. China

Jul. 1999 - Oct. 2003

Software Engineer

- Develop programs in Delphi and VC, develop store procedure in MSSQL.
- Hands-on development VCL components including Grid, Reporter, etc.

EDUCATION

M.S., Computer Science, Northeast Forestry University. China

2009

College, Computer Science, Jiamusi University. China

1999
